

**Together - Making A
Difference in Health Care**

Palm Beach County Medical Society Services (PBCMSS) was founded in 2001 by the physician leadership of the Palm Beach County Medical Society to expand the reach of physicians in the community. Today, the organization is led by a qualified board comprised of physicians, health care professionals, and community leaders who take seriously their responsibility to develop innovative and collaborative solutions to priority health issues.

This year, we have strengthened existing programs and expanded our efforts to address Physician Wellness, Care Coordination, the Opioid Epidemic and Adverse Childhood Experiences (ACES). Our commitment to address these issues has been made possible by the partnership and generous support of physicians, health care organizations, foundations, education, government grants, businesses, and donors.

It is an honor to work with our community partners, dedicated volunteers and committed Board of Directors. Together we are making a difference engaging physicians, enhancing access to care and addressing the health care needs of our community. I invite you to join us.

Michael T.B. Dennis, MD
President

Our Impact

Programs

- Expanded Project Access Network and provided \$1.3 million in donated care to over 1,000 low-income, uninsured patients
- Established the Dental Care Partnership, a collaborative effort to bring critical dental care to an underserved population
- Launched the Community Health Worker (CHW Care Coordination) Training Program and graduated 80 students
- Implemented Physician Leadership Program for 24 South Florida Physicians
- Launched the “My Health Access Program” to help all Palm Beach County residents access health care and services
- Convened Opioid Epidemic Task Force and developed a community-wide plan
- Partnered with University of Miami Medical School MD/MPH Capstone Program on Adverse Childhood Experiences Project (ACES)
- Established Physician Wellness Program

Events

- Hosted 11th Annual Future of Medicine Summit & Medical Education Poster Symposium with over 400 attendees
- Recognized Palm Beach County Heroes in Medicine at 14th annual luncheon
- Held annual Starfish & Snowflake Gala which celebrated organization leaders

Community Support and Recognition

- Over 2,000 participating volunteers
- Launched 2020 Donor Society
- Welcomed 3 new members to 1919 Society
- Recognized 5 Hippocrates Society members
- Partnered with University of Miami MD/MPH Capstone Program
- Provided internship opportunities for Florida Atlantic University Health Administration students and Florida Atlantic University School of Social Work students
- Certified by Nonprofits First
- Recognized by American Association of Medical Society Executives with the Profile in Excellence Award

INNOVATIVE PROGRAMS Making A Difference

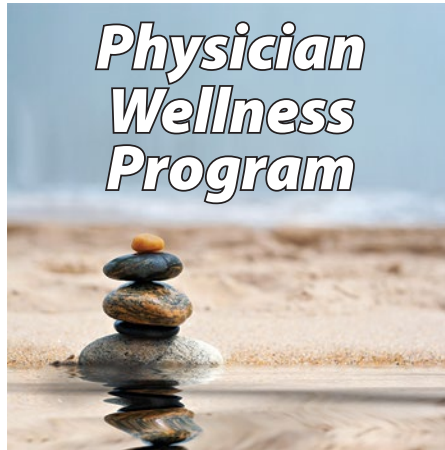

CHW Care Coordination Training Program

CHW Care Coordination Training Program provides community health workers innovative training to enhance skills needed for improved patient experience and participation in care. Participants learn about chronic medical conditions; activities which improve health; cultural competency; patient advocacy skills; and communication strategies such as motivational interviewing. The goal is to improve health outcomes and enhance the patient experience.

South Florida Excellence in Physician Leadership Institute

A two-year pilot project, funded by the Physician's Foundation for physician leadership, focused on addressing leadership challenges faced in a diverse community. Each class is comprised of selected physicians from Broward, Dade and Palm Beach County

Physician Wellness Program

The Physician Wellness Program was created to promote physician well-being and create a safe harbor for physicians to receive confidential counseling and support.

Project Access

Project Access is a network of physicians, hospitals and health care providers who donate care to the low income uninsured residents in Palm Beach County. Including coordinating specialty care, hospital care, and ancillary services, Project Access volunteers have provided more than \$12 million to over 11,000 individuals in need.

Disaster Services: HERC

Healthcare Emergency Response Coalition's (HERC) mission is to develop and promote the health care emergency preparedness, response and recovery capability in Palm Beach County. HERC has 25 member organizations that include our 15 county hospitals and other emergency organizations to ensure our safety at all times. This year, HERC and PBCMS partnered to form the PBC Opioid Task Force to address a major public health epidemic.

MRC

The Medical Reserve Corps' (MRC) mission is to improve the health and safety of Palm Beach County residents by organizing and utilizing public health, medical, and other volunteers to respond to natural or man-made disaster events and other local public health needs.

The Future of Medicine

The Future of Medicine Initiative has brought together community leaders to define issues, establish partnerships and implement strategies for change. The Future of Medicine Summit, The Summit brings together national and community health care leaders to explore the "hot topic" issues facing health care. A special focus on medical education is provided with the James J. Byrnes, MD, Medical Student and Resident Poster Symposium.

Recognizing Excellence

Volunteers are the heart of our organization with over 2,500 volunteers participating in our programs.

CHW Care Coordination Extraordinary Service Awards

The Power of Community

For the past 20 years, I have kept the quote by Margaret Meade on my office wall – “Never doubt a small group of thoughtful committed individuals can change the world, it is the only thing that ever has.” It is this belief that guides my work at the Medical Society. I am honored to work with committed physicians and community leaders.

During the past year we have experienced a great deal of turmoil in health care. While the future is uncertain, there is one thing that is clear — all health care is local. Yes, the challenge is great, but we have a strong commitment to ensure that we address the health care needs of our community. From navigating and providing care to the uninsured, supporting the educational and wellness needs of our physicians and medical students, coordinating disaster preparedness services, addressing the opioid epidemic and more, Palm Beach County Medical Society Services is proud to be a community partner.

Tenna Wiles

CEO, Palm Beach County Medical Society & Services

1919 Society

Palm Beach County Medical Society physicians have a proud tradition of serving the community. The 1919 Society is a leadership Giving Society which has demonstrated a long term commitment to our community.
